Bank Interface

Interface Bank

```
{  
    void CreateAccount();  
    void deposit(double t);  
    void withdraw(double amt);  
    double getBalance();  
    double getAnnualInterest();  
}
```

Public class SB(~~SB~~ implements Bank

```
{  
    static String bankId;  
    " " " branch;  
    " " " location;  
}
```

void SetMonthlyInterest();
}

Do above for all banks, HDFC, ICICI

Public class Person ~~SB~~ extends SB)

int person id

String Name

long acc num

Char acc type

String email

Account Details c)

{

S.O.P (this.personid)

S.O.P (this.name)

S.O.P (this.branch)

:

}
